FOOD SAMPLING REQUIREMENTS

In an effort to increase sales of a food product or a piece of cooking equipment, samples of a food are sometimes given to the consumer. Food is defined as any raw or processed substance, ice, beverage, including water, or ingredient intended to be used as food, drink, confection or condiment for human.

1. A temporary food facility permit from the City of Long Beach is required when selling or giving away food to the public, and/or when food samples are being given to the public. Permit must be displayed at booth for review during inspection.

This hand-wash station must be setup prior to preparing and handling food/food samples.

Minimum handwashing sink

Examples of dispensing devices include squeeze bottles and shaker bottles.

4. Food preparation (cutting, slicing, peeling, portioning, cooking, etc) of samples must be done at least 3 feet away from customers to protect foods from contamination. Sneeze guards can be used to protect food from customer contamination (i.e., sneezing, touching, hair, etc.).
